Nausifly 4, the new generation patient lift ! handy, practical, space-saving and more efficient.

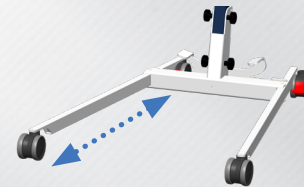

1 Ease of movement

New **multidirectional flail** (standard version only) for easy transfer. **Mechanical locking** of the flail before folding. Compatible with weighing systems sold by Nausicaa Médical. Allows easy pick-up from the ground.

2 Adapts to any spaces

Adapts to all environments thanks to its very short base. Allows easy access to all types of chairs and in very small spaces such as toilets.

3 Foldable, and storable upright

Convenient and compact thanks to its **folding function**, which can be split without tools. **Can be stored upright. Can be moved as a trolley or cart.** Delivered assembled. A protective cover is available as an option. Available with electrically adjustable feet.

4 Removable battery

High-performance 3.4A battery. No need to move the device to charge it, thanks to its **removable, rechargeable battery.**

Compact
160 kg

Standard
200 kg

Nausicaa Médical is committed to CSR by using **eco-designed, 100% recyclable packaging.**
